College, Bilaspur (C.G)

ABOUT GOVT. BILASA GIRL'S POSTGRADUATE AUTONOMOUS COLLEGE:

GOVT. BILASA GIRLS P.G. (AUTO) COLLEGE, BILASPUR was established in the year 1961. The courses run by the college have been duly approved by the University Grants Commission (UGC). The college is affiliated to Atal Bihari Vajpayee Vishwavidyalaya, Bilaspur (C.G.)

The college has adopted UGC-Model syllabi in different syllabi and is well suited for NET and various other examinations of National repute. The disciplined environment, dedicated faculty wide arena of subjects offered make it truly a "Centre of Excellence. Being recognized as the College with Potential for Excellence by the UGC, the college has greater responsibility to undertake in the field of Higher Education. The overall organizational structure, its management, infrastructure, teaching evaluation pattern counselling aspects of our institute were responsible to secure B+ Grade by National Accreditation & Academic Council (NAAC).

The College has an excellent Central Library having a wide collection of books and subscribe various journals to cater the academic needs of the students and faculties. The laboratories are well equipped. Conferences and Seminars of National / Regional / State / Local levels are organized frequently to provide exposure to the students and the faculty members. Research and extension are inherent of several Post Graduate Programmes offered by the college.

ABOUT BHAGYASHREE FOUNDATION FOR ACADEMIC RESEARCH AND DEVELOPMENT:

BHAGYASHREE Foundation for Academic Research and Development is a culmination of likeminded eminent researchers who joined together to build and strengthen research across Asia, the largest continent pooling in experts from more than 50 countries. Asia is very popular for its rich heritage and culture. Though having such credentials there still exists a gap in practical application of the results. This techno-friendly world has opened up ample opportunities for connecting researchers of the same science. In the recent two decades, cross-border research collaboration has doubled up. The techno-progressive culture has facilitated researchers to expand their horizons by connecting online. The intense motivation drive behind this intellectual gathering is promoting research across Asia. This will be a research replica platform where research conducted in one country can be conducted with necessary adaptation in other countries of Asia through the members of this Association. The research works will gain wide recognition and authenticity for their country-wise interpretation, which will provide multifaceted credibility. This platform will also serve as a channel in bridging young career-seeking professionals with experts of that field. This firm aims to include societal responsibility among researchers of Asia, converting the lab results as field applications. This association facilitates confidential research networking, ruling out research barriers.

SUB THEMES:

- Climate Change Adaptation and Community-Based Resilience
- Sustainable Development Goals (SDGs) and Environmental Inclusivity
- Indigenous Knowledge Systems and Environmental Conservation
- Green Economy, Livelihood Security, and Social Inclusion
- Environmental Governance, Policy Frameworks, and Institutional Challenges
